

FACTSHEET (R MUR)

31 August 2022

Investment Focus

AXIOM Sustainability Premia aims to participate in rising markets, benefitting from long-term appreciation of ESG related equities and outperform in falling markets by providing downside protection against highly volatile markets.

By investing in a long-short strategy, the Fund seeks to be market neutral with low correlation to traditional asset classes. The layer of protection also allows the strategy to limit volatility.

The European market, which is considered the most mature sustainable universe is the ideal vehicle to implement our strategy.

Market Review

Over the month, the European ESG Stocks as measured by the EURO STOXX 50 ESG Index TR (EUR) was down by -3.97% underperforming the EURO STOXX 50 Index TR (EUR) by 34bps. Top performing countries in the ESG space were Ireland and Finland while top performing sectors were Energy and Communication Services sectors. Market sentiment on European ESG stocks has been weak across the board, our indicator based on investor flows reveals a net outflows of approx. EUR911M last month on the asset class. At the end of last month and since the last expiry, 63% of AXIOM Sustainability Premia investment has been profitable. At the country level, top contributors were Switzerland and France while main detractors were Spain and Sweden. At the sector level, Health Care and Financials contributed positively to the overall performance while Materials and Utilities contributed negatively. Top performing underlying stocks such as Sonova Holding AG a leading european provider of hearing care solutions helped the fund performance while BillerudKorsnas AB a company offering renewable packaging materials and solutions declined during the month and was one of the main detractors.
